LB 393, 611

a number of counties that would decide, no, we don't want a 55 mile per hour speed limit, but we have decided that that is bad policy and we are not going to do that, we are going to apply the law equally statewide. Now I believe that this exemption or this chipping away at this area is bad news, and as I indicated, I want to alert the body to exactly what 393 is doing. I believe that allowing this chipping away is something that we should be well aware of when we vote on this bill and that is the reason for this motion, and now having made that point, Mr. President, I would like unanimous consent to withdraw this motion and proceed with the bill.

SPEAKER NICHOL: Any objections to withdrawing of the motion? So ordered. Mr. Clerk.

CLERK: (Read LB 393 on Final Reading.)

SPEAKER NICHOL: All provisions of law relative to procedure having been complied with, the question is, shall the bill pass? All those in favor vote aye, opposed nay. Have you all voted? Record, Mr. Clerk.

CLERK: (Record vote read. See pages 1397 and 1398, Legislative Journal.) 26 ayes, 19 nays, 4 excused and not voting, Mr. President.

SPEAKER NICHOL: LB 393 passes. We will skip back up to Senator Chambers' motion to reconsider the issue to raise LB 611 from the committee.

So in order to give him another shot at doing something that I disagree with one hundred percent I offered the motion, and having done that, I now turn the matter over to Senator Warner...not unless he is going to run out, too.

SENATOR WARNER: Thank you, Senator Chambers. I will not take long. As you know 611 was a bill that was proposed as one of the cost containment possibilities which would permit the Director of the Department of Social Services to be selective on those optional services that are
